SOFT SKILLS

- Adaptability
- Punctuality
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

LANGUAGES

- Sinhala - Native
- English - Proficient

PERSONAL PROFILE

I am a hardworking, self-disciplined and enthusiastic software engineering student passionate about learning new technologies through hands-on experimentation. Proficient in multiple programming languages, software development methodologies, and database management systems. Strong problem-solving skills and ability to work effectively in a team-based environment. With a responsible and orderly approach, I am eager to gain my first professional experience as an intern.

Informatics Institute of Technology affiliated with University of Westminster

Foundation Certificate in Higher Education

Sep 2022 – Jan 2023

Informatics Institute of Technology

GCE Ordinary Level

Jan 2017 – Dec 2018

Methodist College Colombo 3

8A's 1B

CERTIFICATIONS

Certificate in Java Application Development

Aug 2023 – Dec 2023

National Institute of Business Management

Certificate in Full Stack Development

Mar 2022 – Sep 2022

University of Moratuwa

ACHIEVEMENTS

- Problem Solving International Hackathon 2024
- API 101 Using Postman
- GIT 101
- AI Content Safety Workshop
- SkillUp 1.0 PDP Workshop
- SkillUp 2.0 PDP Workshop
- IIT Pre-University Game Fiesta

TEAM LEADERSHIP

Nov 2022

IIT Pre-University Game Fiesta
Team Captian

Jan 2023 to Dec 2023
Batch Representative

REFEREES

Mr. Cassim Farook
Senior Lecturer at IIT
cassim.f@iit.ac.lk
0768209735

Chinthaka Gamage
Manager HRIS and Pre Sales

PROJECTS

Hirely AI - Recruitment Platform

May 2024

Hirely AI transforms recruitment by providing a platform for posting jobs and applying with CVs and targeted responses. Its advanced language model evaluates each candidate's suitability, categorizing them as fit or unfit for the role. This enables hiring managers to efficiently pinpoint and prioritize top candidates, streamlining the selection process.

(React.js, Tailwind CSS, Node.js, MongoDB, Python, GPT - 3.5 Turbo)

MindPhix - Mental Health Web Application

Oct 2023 - Mar 2024

Mindphix is a comprehensive mental health application that combines depression assessment, providing personalized recommendations, weekly progress report and a depression awareness chatbot, providing a holistic approach to support individuals in coping with depression.

(Next.js, Tailwind CSS, Firebase, Python, Flask, Dialogflow)

Airline Reservation System

Dec 2023

The airline reservation system is a user-friendly application allowing travelers to search, book, and pay for flights effortlessly. It also enables easy cancellation of reserved tickets, providing convenience and flexibility to passengers throughout their journey.

(Java, JavaSwing, MYSQL)

St. Regis - Hotel Management Application

April 2023

The St Regis web application streamlines the hotel experience, enabling guests to conveniently search room availability, view room details, explore on-site restaurants, and discover local attractions. With a user-friendly interface and mobile responsiveness, the application empowers visitors to plan their luxurious stay seamlessly.
